Scrofula, or King's Evil. is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the injunities of the fathers upon will visit the iniquities of the fathers upon

their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to with-stand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it.

To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the Bystem from its destructive consequences.
Hence it should be employed for the cure of
not only Scrofula, but also those other affections which arise from it, such as ERUPTIVE and Skin Diseases, St. Anthony's Fine, Rose, or Enysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DIS-EASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA-TED OR INTURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sersapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions,

AYER'S Ague Cure,

FOR THE SPEEDY CURE OF Intermittent Fever, or Fever and Agne, Remittent Fever, Chill Fever, Bumb Agne, Periodical Hendache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of Minsmatic Countries.

We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "CURE" expels the miasmatic poison of Fiven AND AGDE from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where FEVER AND AGUE prevails; every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the speedy and certain

other ever discovered for the speedy and certain cure of Intermittents is that it contains no Quinius or mineral, consequently it produces no quinius or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Hemiache, Blindness, Toothache, Eurache, Catarrh, Astham, Falpitation, Painful Affection of the Sphen, Hysterics, Pain in the Bowek, Colic, Paralguis and Derangement of the Stomach, all of which, when originating in this cause, put on the intermitent type, of become periodical. This "Cure" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot that will be excreted from the system, and cannot accumulate in sufficient quantity to riger into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents if they avail themselves of the protectio this remedy affords.
